

Increase Revenues

Decrease Overhead

Expand Service Portfolio

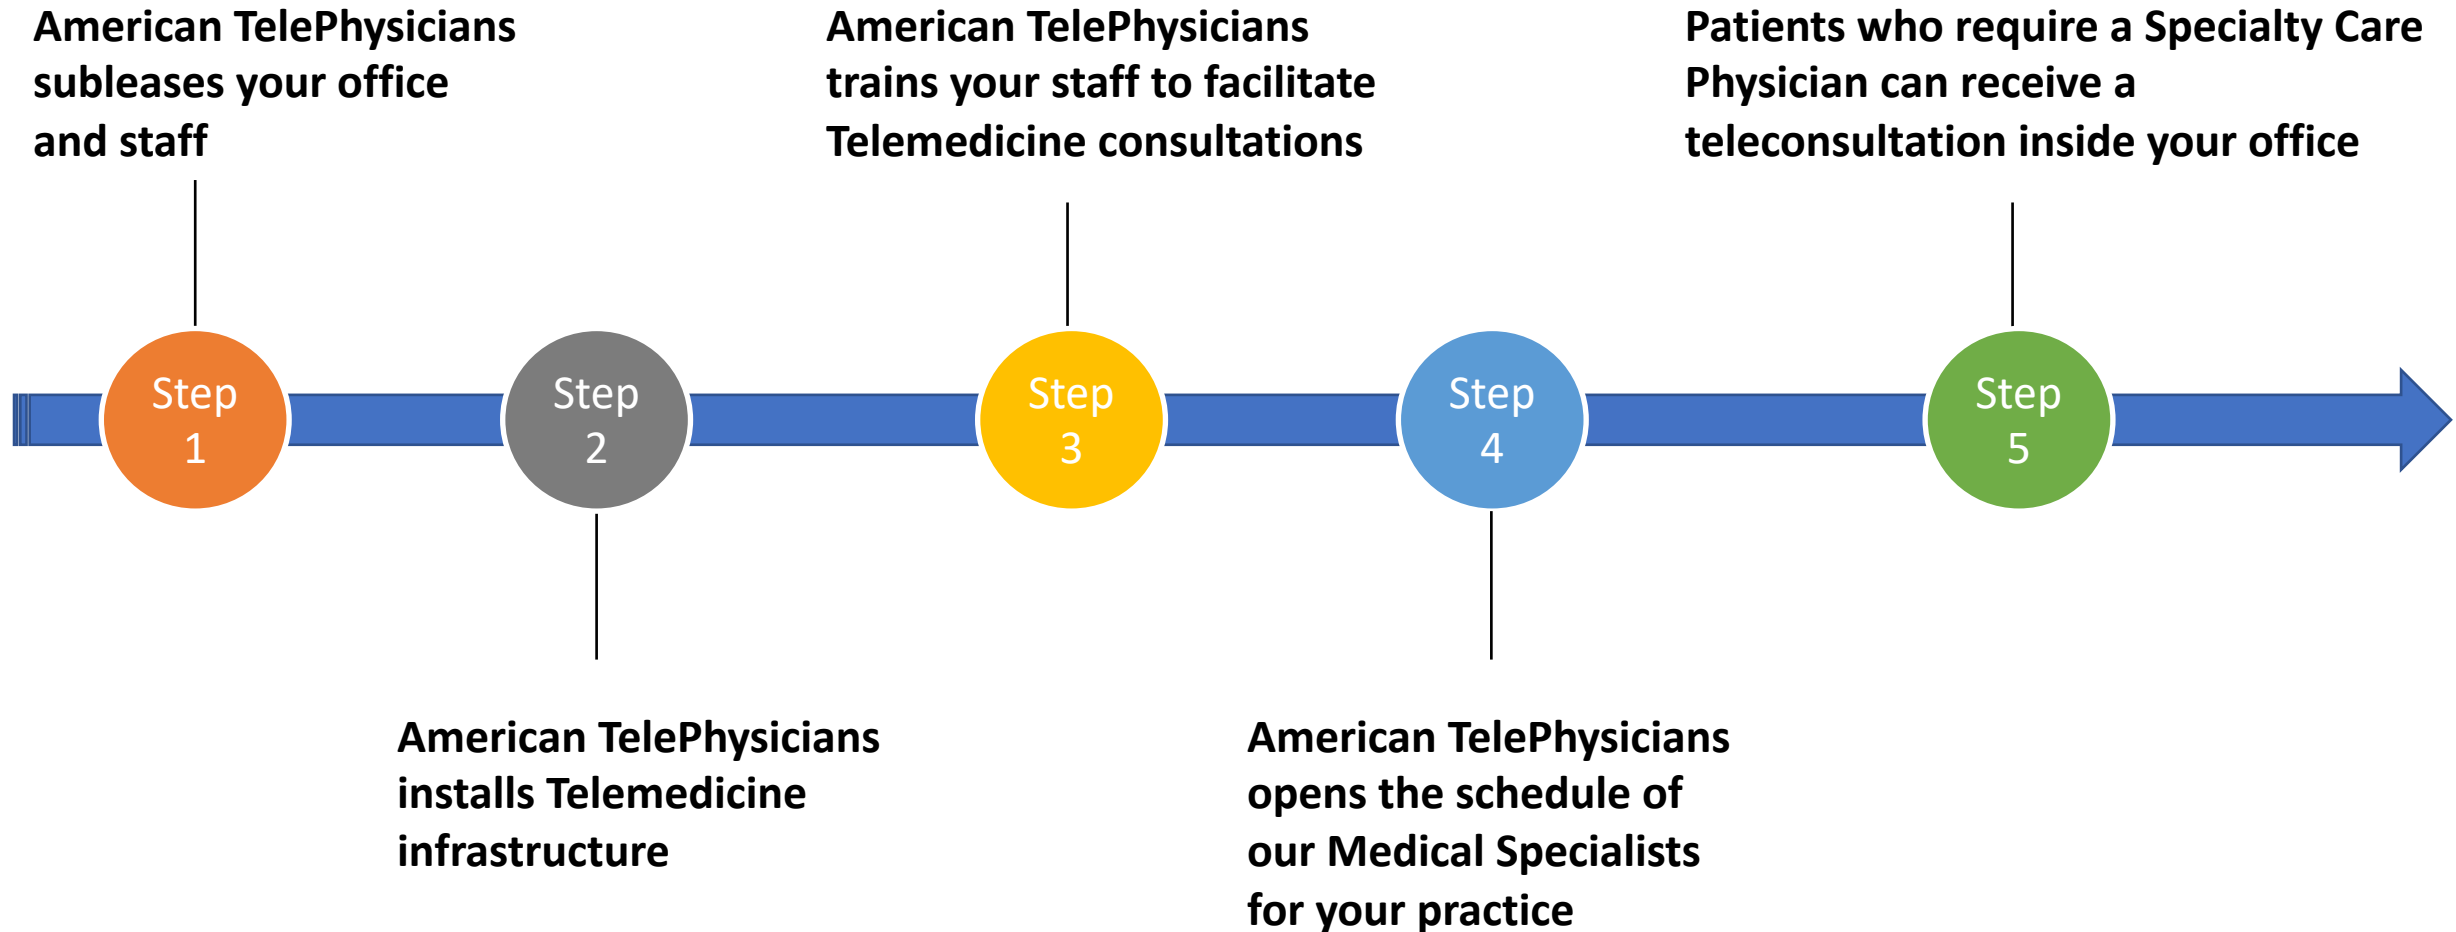

Improve Patient Satisfaction

By partnering with

**AMERICAN
TELEPHYSICIANS**
THE HOME OF DIGITAL HEALTHCARE

How it works

What's in it for you

Decreases Overhead

Your fixed overhead costs decrease as American TelePhysicians shares your rent and staff costs.

Increases Revenues

Your revenues increase as American TelePhysicians specialists may refer consulted patients for on-site procedures and diagnostics.

Expand Portfolio

Earn a reputation as more than a primary care clinic. Become a composite specialty care facility.

Patient Satisfaction

Enhance patient satisfaction by providing primary and secondary care under one roof and enable continuation of care for your patients.

How much will it cost

\$0

Setting up an internal specialty clinic does not cost your practice anything. American TelePhysicians will incur all costs, including infrastructure, technology, EMR, and training. Plus, American TelePhysicians manages the availability of specialty physicians for consultations.

Who we are

American TelePhysicians is a Florida-based digital healthcare company with the focus on utilizing information technology and artificial intelligence to improve quality matrices throughout the healthcare industry.

American TelePhysicians is revolutionizing the care delivery through its various digital products, projects and services many of which have earned the company recognition from the highest levels such as the United Nations, American TeleMedicine Association and Samsung Digital Health Department.

American TelePhysicians' marketplace project Cura4U (www.cura4u.com) allows patients to receive affordable care in the most convenient manner. Our technology product SmartClinix (www.smartclinix.net) is a proprietary telemedicine EMR which makes teleconsultations as wholesome and satisfactory as in-office consultations. Moreover, ATP specialty physician services comprises of hundreds of American board certified physicians from all specialties and states.
